

"Here We Grow Again" Greenhouse

2013 Spring Plant List

Spring has sprung at Here We Grow Again Greenhouse! The 2013 plant list includes all of the great plants listed below plus summer squash, cucumbers, and eggplant (\$1.50 for a 4" pot). Dinah Raye doesn't use any chemicals on her plants and only uses fish fertilizer. Here We Grow Again Greenhouse features both organic and heirloom as well as conventional varieties. This year's annual flowers are selling at \$1.50 per 4" pot and include petunias, marigolds, torenia, trailing lobelia, four o'clocks, verbena and nicotiana (and whatever else Dinah gets growing!)

Orders are being taken for hanging flower baskets (\$30.00). Please contact Dinah Raye if you want hanging baskets that will knock your socks off at a great price!

Here We Grow Again is open most days except Sunday when the season starts. If the sign is out on the road (Highway 54 between Athol and Bayview), you know Here We Grow Again is open for business. Please call if you have questions or need more information. Thank you!
